EBITDA Operations margin Germany¹

Rental Segment

¹ EBITDA Operations margin (Adj. EBITDA Rental + Adj. EBITDA Value-add – intragroup profits) / Rental Income. Margin 2019 and beyond includes positive impact from IFRS 16. Cost per unit is defined as (Rental Income - EBITDA Operations + Maintenance) / average no. of units. ² In Sweden, rental income includes ancillary costs. Rough estimate assuming 30% of rental income relates to ancillary expenses would reduce the Rental income and Operating expenses by ca. €50m in H1 2020 and ca. €20m in H1 2019.

¹ Based on sales proceeds.

Adj. EBITDA Development Ramp-up Continues

- Development segment broadly in line with our expectations.
- > Operating expenses in H1 2020 impacted by comparatively lower administrative and personnel costs and the reversal of provisions that are no longer required.

Development Segment

אועסהסע

| Development Segment (€m) | H1 2020 | H1 2019 | Delta |
|--|---------|---------|--------|
| Income from disposal of "to sell" properties | 107.5 | 124.9 | -13.9% |
| Cost of Development to sell | -83.7 | -95.2 | -12.1% |
| Gross profit Development to sell | 23.8 | 29.7 | -19.9% |
| Fair value Development to hold | 144.7 | 103.8 | 39.4% |
| Cost of Development to hold | -118.2 | -86.1 | 37.3% |
| Gross profit Development to hold | 26.5 | 17.7 | 49.7% |
| Operating expenses Development segment | -5.2 | -16.7 | -68.9% |
| Adj. EBITDA Development | 45.1 | 30.7 | 46.9% |

Note: This segment includes the contribution of to-sell and to-hold constructions of new buildings. Not included is the construction of new apartments by adding floors to existing buildings, as this happens in the context of, and is accounted for, under modernization.

Segment Vonovia's Contribution towards Reducing the Housing Shortage VONOVIA Highlights Segments NAV & Valuation LTV & Financing Guidance Wrap-up Appendix

New rental apartments for our own portfolio ("to hold")

- > 534 units completed in H1 2020 (including floor additions).
- Total pipeline of ca. **41,000 apartments**, of which more than 70% in Germany and the remainder in Austria and Sweden.
- Average apartment size between 60-70 sqm and broadly in line with overall portfolio average.
- > The development to-hold investment volume is part of the overall investment program.

Development

2020 target: ~1,300 completions

New apartments for retail disposal ("to sell")

- > 83 units completed in H1 2020.
- > Total pipeline volume of ca. €3.2bn (ca. 9,000 apartments), of which ca. 70% in Germany and ca. 30% in Austria.
- Investment capital for Development to sell is not part of investment program.
- > Average apartment size between 70-80 sqm.
- Average investment volume of €4.5k €5.0k per sqm.
- > Expected gross margin between 20-25% on average.

2020 target: >300 completions

| Valuation KPIs June 30, 2020 | Vonovia Total | Germany | Sweden | Austria | Value growth drivers | | H1 <u>2</u> | 2020 | | H1 <u>2019</u> | | | |

- > In response to the profound evolution of property company's business models and in order to help capital markets better understand the dynamic of the underlying operations, EPRA has developed **new EPRA NAV Metrics** effective for reporting periods starting Jan 1, 2020. In the context of the portfolio valuation update as of June 30, 2020, Vonovia for the first time reports the following new EPRA NAV metrics:
 - Net Tangible Assets (NTA): Proxy for brick-and-mortar value of the long-term holding portfolio Σ
 - Σ **Net Reinstatement Value (NRV)**: Beyond the bricks - aims to represent the value required to rebuild the <u>company</u>
- > For now, Vonovia will continue to also report the previous NAVs but expects to retire the three Performance Measures EPRA NAV, Adj. NAV and EPRA NNNAV in due course.

Note: The new EPRA NAV Metrics also include a Net Disposal Value (NDV), which is a proxy for a liquidation value assuming all assets are sold at fair value, therefore including the crystallization of deferred taxes. Vonovia intends to publish the NDV with the FY2020 results. ¹ Dec. 31, 2019, numbers adjusted (cf. Note A2 of H1 2020 financial report). ² Adjusted for effects from cross currency swaps.

The Two New Leading NAV Metrics

Net Tangible Assets (NTA) and Net Replacement Value (NRV)

Highlights Segments NAV & Valuation LTV & Financing Guidance Wrap-up Appendix

Net Tangible Assets (NTA) - "brick and mortar"

- > Proxy for long-term **holding portfolio value**
- Assumes the disposal of assets that do not form part of the long-term holding portfolio
- Deferred taxes on assets and purchaser's costs, such as RETT, relating to the disposal portfolio, are therefore excluded

Net Reinstatement Value (NRV) – "beyond the bricks"

אועסהסע

> Proxy for **company value**

Equity to EPRA NRV bridge (€m)

- > Represents the value required to rebuild the company
- Reflects long-term nature of the business and is based on the assumption that assets are held in perpetuity
 (deferred taxes on assets and purchaser's costs, such as RETT, are therefore added back)
- Intangible values are included with the enterprise values of the Value-add and Development segments, net of the respective carrying amounts. The enterprise value is the result of a DCF valuation by an independent valuer and based on Vonovia's internal 5-year business plan

¹ Excl. deferred taxes on disposal portfolio (€1,459m). Note: The new EPRA NAV Metrics also include a Net Disposal Value (NDV), which is a proxy for a liquidation value assuming all assets are sold at fair value, therefore including the crystallization of deferred taxes. Vonovia intends to publish the NDV with the FY2020 results.

¹ If the one-off reduction of rents in Berlin to 120% of the rent ceiling is implemented in November, as currently planned, we expect to come out towards the lower end of the range; similarly, if it is not implemented we expect to come out towards the higher end of the range

Our business continues to perform very stable and fully in line with our expectations.

We have proven the robustness of our business model and are only marginally impacted by COVID-19.

 $\overline{\checkmark}$

The underlying market fundamentals are intact and the environment in which we operate remains very favorable.

We remain confident in our ability to deliver growth as per our 2020 guidance and beyond.

Vonovia is more than brick and mortar and the new EPRA metrics are good proxies to show the value of the portfolio vs. the value of the company.

Agenda

VONOVIA

Growing recurring cash earnings per share and DPS

Dividend policy: ${\sim}70\%$ of recurring cash earnings are distributed as dividends

Two types of sustainable shareholder returns³

¹ Incl. 27k apartments in other strategic locations plus 5k in non-strategic locations that are not shown on the map. ² 2013-2018 FFO is "FFO1" and 2019+ FFO is "Group FFO." ³ Dividend yield plus l-f-l organic asset value growth from operating performance and investments (excluding yield compression).

Our actions are guided by a long-term view and a careful balance between all stakeholders.

Scalable B-to-C business beyond the bricks

We have the best-in class operating platform to serve our customers in regulated markets across the entire residential real estate value chain.

Our experience and knowhow enable us to scale our business in attractive European markets.

multifamily housing portfolio אועסהסע

Long-term owner and

full-scale operator of

Europe's largest listed

We develop solutions for the

housing market and are a reliable partner for municipalities & communities in our neighborhoods.

We offer sustainable pershare earnings and value growth with superior downside risk protection to our investors.

We have the necessary access to capital markets to finance the required investments.

G

Our business conduct is built around trust,

Sustainable

earnings und

value growth

transparency & reliability

License to operate

Contribution to climate S F. protection and CO₂ reduction

Operating in residential markets brings with it a special responsibility

Long-term Support from Megatrends
Long-term Support from Megatrends More than €550m Neighborhood Development Investments VONOVIA Highlights Segments NAV & Valuation LTV & Financing Guidance Wrap-up Appendix

While each project is different depending on specific local requirements and opportunities, neighborhood development projects usually include energy efficient modernization, construction of new apartments, apartment modernization and general upgrade of the neighborhood environment.

Serving a Fundamental Need in a Highly Relevant Market

NAV & Valuation

Main Focus Points of Our Sustainability and ESG Dimensions

| Highlights | Segments |
|------------|----------|
| | |

NVIRONMENTAL

- Largest and most meaningful positive impact is through increasing energy efficiency and CO₂ reduction of the >50,000 buildings in our portfolio
- Ca. one million tCO₂e emissions per year
- Committed to Germany's ambitious target of achieving a virtually climate neutral building stock by 2050 → energy efficient modernization of our portfolio at rate of >3% p.a.
- Researching innovative ways to reduce CO_2 emissions and increase the use of renewable energy

LTV

& Financing

Guidance

- Deeply rooted in the middle of society with products & services that impact the lives of more than one million people
- One's home is not a product like any other → it serves a basic need alongside food and oxygen
- As a partner in the local markets in which we operate we provide answers to the challenges of the housing sector
- Most important solution lies in the construction of new and affordable apartments; as one of Germany's largest homebuilders we lead by example
- Responsibility for ~10,000 employees from 74 countries

Wrap-up

VONOVIA

Appendix

• Business conduct is built around trust, transparency and reliability

- In everything we do we play by the rules and are compliant with all relevant laws, directives, social norms and agreements
- Continuous and open dialogue with all stakeholders
- We will only be successful if our stakeholders feel that they can rely on us

As Europe's largest listed landlord we provide a home to around 1 million people from ca. 170 nations. All of our actions have more than just an economic dimension.

<u>**E**</u>SG – High Run-rate in Energy-efficient Modernization & Innovative Research in the Field of CO_2 Reduction

We support the German government's ambitious target of establishing a virtually climate-neutral building stock in Germany by 2050

% of modernized housing units

Climate Protection Through Innovation -> Bochum-Weitmar District

- In partnership with renowned Fraunhofer institutes, Vonovia is implementing a three-year hands-on innovation project as part of Open District Hub e. V. in our neighborhood in Bochum-Weitmar to develop and test new technologies in ongoing operations.
- The aim of the project is to supply the neighborhood with electricity and heating that is as carbon-neutral as possible. We aim to achieve this by linking the energy sectors via a central platform.
- A smart, self-learning energy management system then ensures that the right energy is distributed to tenants when they need it – at electric charging stations, in the form of electricity for tenants' own households or in the form of heating.

אועסהסע

- Energy-efficient refurbishment, e.g., measures relating to the building shells and heating systems
- Infrastructure for e-mobility, e.g., charging stations and e-wall sockets
- **5** Sustainable energy supply, e.g., photovoltaic systems for tenant electricity

Measures at neighborhood level:

- 6 Building digitalization and networking
- 🕢 Sector coupling (heat, electricity, mobility, etc.) in the neighborhood via digital platform
- 8 Storage and distribution of energy generated in a decentralized structure enables on-site consumption
- Promotion of biodiversity

E<u>S</u>G - Deeply rooted in the middle of society with products & services that impact the lives of more than one million people

CUSTOMERS

- Business philosophy above and beyond what is legally required
- Self-imposed obligation to limit ourselves to maximum rent increase of €2/sqm after invest
- Guarantee to customers 70+ years that rents will remain affordable irrespective of legal rent increase opportunities
- In-house craftsmen organization to ensure swift response time to repair & maintenance needs
- Multilingual service center for customer enquiries with 24/7 emergency service and tenant app to access all relevant data and for state-of-the-art customer-landlord communication

SOCIETY

- Availability and affordability of housing is one of key social questions of our time. The most effective answer to address this challenge is new construction. With almost 2,000 apartments per year we are part of the solution
- Several hundred million of investments in neighborhood development to make sure that people feel at home not only within their apartments but also within their local neighborhood
- Various foundations, donations and different initiatives (e.g. photo award) support our commitment to society

EMPLOYEES

- We bear responsibility for offering our employees a working environment in which they are happy, healthy and able to advance in line with their expectations
- Our Vonovia academy continuously offers a range of training and coaching opportunities
- Comprehensive health management
- Generous home office regulation and part-time models to enable employees to balance career and family
- Signatory of Diversity Charter and committed to appreciation, tolerance and respect

Residential Market Fundamentals (Germany) Household Sizes and Ownership Structure

| Highlights | Segments | NAV & Valuation | LTV & Financing | Guidance | Wrap-up | Appendix | | | | | |
|------------|----------|-----------------|--------------------|----------|---------|----------|--|--|--|--|--|
| | | | | | | | | | | | |

Growing number of smaller households

- While the overall population in Germany is expected to slightly decline, the number of households is forecast to grow until at least 2035 with a clear trend towards smaller households.
- The household growth is driven by various demographic and social trends including divorce rates, employment mobility etc.

Distribution of household sizes (million)

Fragmented ownership structure

- Germany is the largest housing market in Europe with ~42m housing units, of which ~23m are rental units.
- Ownership structure is highly fragmented and majority of owners are non-professional landlords.

11/100/11

15.0

> Listed sector represents ~4% of total rental market.

Long-term Structural Support from Fundamental Residential Market Trends (Sweden)

| Highlights Segments NAV & Valuation | LTV Guidance | Wrap-up | Appendix |
|-------------------------------------|--------------|---------|----------|
|-------------------------------------|--------------|---------|----------|

The market fundamentals in Sweden are very

comparable to Germany.

High degree of similarities in terms of urbanization,

rental regulation, supply/demand imbalance and gap between in-place values and replacement values.

Large gap between in-place values and replacement costs²

Victoria Park³ – fair value/sqm (SEK; total lettable area) vs. construction costs

Robust rent growth in regulated environments¹

Rent growth in **regulated markets** follows a sustainable upward trajectory and is largely independent from GDP developments; rents in **unregulated markets go up and down** broadly in line with the GDP development

VOUOVIA

Structural supply/demand imbalance

Sweden's average annual residential completions of the last five years fall short of estimated required volumes

¹ Sources: REIS, BofA Merrill Lynch Global Research, OECD, Statistics Sweden. Note: Due to lack of q-o-q rent growth data for the US and Sweden, the annual rent growth for a year is assumed to also be the q-o-q rent growth of that year. US rent growth 2020 is full-year estimate. US GDP Q2 2020 is the Advanced Estimate of the US Bureau of Economic Analysis as of July 30, 2020 (32.9% annualized), converted to a y-o-y comparison. ² Note: The land value refers to the share of total fair value allocated to land. Allocation between building and land in Sweden assumed to be similar to Germany. Sources: Swedish National Board of Housing, Building and Planning, Statistics Sweden. ³ 2019 includes portfolio acquired from Akelius.

H1 2020 Earnings Call

| Sweden's Social Security and Welfare System Ensures That Citizens in Need can Rely on Comprehensive Public Support | | | | | | AIVONOL |
|---|----------|-----------------|--------------------|----------|---------|----------|
| Highlights | Segments | NAV & Valuation | LTV & Financing | Guidance | Wrap-up | Appendix |

"The personal, economic and cultural welfare of the individual shall be fundamental aims of public activity. In particular, the public institutions shall secure the right to employment, housing and education, and shall promote social care and social security, as well as favorable conditions for good health."

Chapter 1, Article 2(2), The Instrument of Government, The Constitution of Sweden

Similar to Germany, Sweden's social market economy is based on the principle of solidarity and citizens can rely on a comprehensive social security and welfare system. People who cannot participate in the labor market or society because of misfortune, illness, disability, or old age is looked after by the community.

- Arbetslöshetsersättning: Unemployment benefits of up to 80% of previous salary. Based on previous income (at most SEK 20,000 p.m. before tax), or basic benefit of about SEK 8,000 p.m. if previously a full-time employee. The benefit is limited in time.
- Försörjningsstöd: Benefits for anyone who otherwise can't get a reasonable standard of living (includes housing, food, clothing and telephone).
 Given on a need-basis and handled by municipality's social service.
 - 3. Sickness benefits for employees and job seekers
 - **4. Disability allowance/Merkostnadsersättning**: Benefits for extra costs incurred by disability.

Housing benefits "Bostadsbidrag" and "Bostadstillägg":

Housing allowances aimed to people in certain groups that can't afford housing.

- Housing allowance for families with children
- Housing allowance for young people without children (below 29 years)
- Housing supplement for the elderly Receiving other types of support can include an opportunity to apply for additional benefits to cover housing costs.

This presentation has been specifically prepared by Vonovia SE and/or its affiliates (together, "Vonovia") for internal use. Consequently, it may not be sufficient or appropriate for the purpose for which a third party might use it.

This presentation has been provided for information purposes only and is being circulated on a confidential basis. This presentation shall be used only in accordance with applicable law, e.g. regarding national and international insider dealing rules, and must not be distributed, published or reproduced, in whole or in part, nor may its contents be disclosed by the recipient to any other person. Receipt of this presentation constitutes an express agreement to be bound by such confidentiality and the other terms set out herein.

This presentation includes statements, estimates, opinions and projections with respect to anticipated future performance of Vonovia ("forward-looking statements") which reflect various assumptions concerning anticipated results taken from Vonovia's current business plan or from public sources which have not been independently verified or assessed by Vonovia and which may or may not prove to be correct. Any forward-looking statements reflect current expectations based on the current business plan and various other assumptions and involve significant risks and uncertainties and should not be read as guarantees of future performance or results and will not necessarily be accurate indications of whether or not such results will be achieved. Any forward-looking statements only speak as at the date the presentation is provided to the recipient. It is up to the recipient of this presentation to make its own assessment of the validity of any forward-looking statements and assumptions and no liability is accepted by Vonovia in respect of the achievement of such forward-looking statements and assumptions.

Vonovia accepts no liability whatsoever to the extent permitted by applicable law for any direct, indirect or consequential loss or penalty arising from any use of this presentation, its contents or preparation or otherwise in connection with it.

No representation or warranty (whether express or implied) is given in respect of any information in this presentation or that this presentation is suitable for the recipient's purposes. The delivery of this presentation does not imply that the information herein is correct as at any time subsequent to the date hereof.

Vonovia has no obligation whatsoever to update or revise any of the information, forward-looking statements or the conclusions contained herein or to reflect new events or circumstances or to correct any inaccuracies which may become apparent subsequent to the date hereof.

This presentation does not, and is not intended to, constitute or form part of, and should not be construed as, an offer to sell, or a solicitation of an offer to purchase, subscribe for or otherwise acquire, any securities of the Company nor shall it or any part of it form the basis of or be relied upon in connection with or act as any inducement to enter into any contract or commitment or investment decision whatsoever.

This presentation is neither an advertisement nor a prospectus and is made available on the express understanding that it does not contain all information that may be required to evaluate, and will not be used by the attendees/recipients in connection with, the purchase of or investment in any securities of the Company. This presentation is selective in nature and does not purport to contain all information that may be required to evaluate the Company and/or its securities. No reliance may or should be placed for any purpose whatsoever on the information contained in this presentation, or on its completeness, accuracy or fairness.

This presentation is not directed to or intended for distribution to or use by, any person or entity that is a citizen or resident or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or which would require any registration or licensing within such jurisdiction.

Neither this presentation nor the information contained in it may be taken, transmitted or distributed directly or indirectly into or within the United States, its territories or possessions. This presentation is not an offer of securities for sale in the United States. The securities of the Company have not been and will not be registered under the US Securities Act of 1933, as amended (the "Securities Act") or with any securities regulatory authority of any state or other jurisdiction of the United States. Consequently, the securities of the Company may not be offered, sold, resold, transferred, delivered or distributed, directly or indirectly, into or within in the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and in compliance with any applicable securities laws of any state or other jurisdiction of the United States unless registered under the Securities Act.

Tables and diagrams may include rounding effects. Per-share numbers for 2013 and 2014 are TERP-adjusted.
